CAREER OBJECTIVE

Motivated and dedicated Bachelor of Computer Applications (BCA) student with a strong interest in web development and software design. Skilled in Java, SQL, HTML, and CSS, with hands-on experience in developing small-scale projects. Seeking an entry-level position to apply technical skills and grow as a software developer.

PROJECTS

1. Personal Portfolio Website

[HTML, CSS, REACT JS,](#)

[Demo](#)

- Designed and developed a responsive personal website to showcase projects, skills, and achievements
- Used HTML and CSS for layout and styling, and JavaScript for interactivity
- Improved understanding of frontend development and responsive

2. Student Information System (Java, SQL)

- Built a Java-based application to store and manage student data
- Implemented data storage, search, and update operations using MySQL.
- Strengthened practical skills in JDBC connectivity and CRUD operations

3. Student Information System (Java, SQL)

- Created a simple web-based feedback system for collecting user opinions and ratings
- Designed the form using HTML/CSS and stored responses in an SQL database.
- Focused on form validation, database integration, and user-friendly UI.
